

### Convergint value

---

Convergint's lone worker solution offers employees a **discreet safety net**, instilling confidence in carrying out their duties without fear. It is conveniently **portable** in a pocket, on a keyring, or on a lanyard. The SOS button connects directly to a certified Alarm Receiving Centre (ARC)

The device provides **accurate outdoor and indoor location** mapping, enabling managers to direct help to the lone worker's location. With over 24 hours of service before needing charging and an easy-to-use magnetic cable, Convergint's solution is the perfect fit for employers with **at-risk employees**.

### Key benefits & features

---

- ✓ **One touch SOS button**  
Lone workers can press the SOS button for hands-free ARC connection with clear voice call.
- ✓ **Fall detection**  
The device has a powerful loudspeaker and sensitive microphone for clear voice communication even at a distance.
- ✓ **Waterproof**  
With an IP67 rating, it operates in most environments.
- ✓ **Amber alert**  
Lone workers can set a timer before a high-risk task, alerting management if they don't respond at the end.
- ✓ **Audio reminders**  
The device provides voice reminders for charging.
- ✓ **Auto answer**  
With auto-answer enabled, the device automatically responds to ARC calls, saving time in emergencies.
- ✓ **'Man down' alerts**  
Intelligent accelerometers detect falls, automatically triggering an alarm to the ARC.
- ✓ **Roaming SIM**  
Auto-connects to the strongest network signal, enhancing lone worker connectivity in low signal areas for wider coverage.
- ✓ **Emergency protocol**  
When enabled, the ARC can call the device discreetly, without a ringtone allowing covert listening to the situation.
