

Enhancing **security**
and **operational**
efficiency worldwide

convergint®

Solution value

Axis Communications, a pioneer in network video solutions since 1984, revolutionized video surveillance with the first network camera in 1996. Their sustainable products **enhance security and efficiency** across sectors like retail, transportation, and public surveillance.

Partnering with Convergint, Axis extends its innovative security solutions to various industries. Convergint leverages the advanced technology of Axis to provide tailored, **efficient security systems**, addressing complex challenges with sustainable solutions.

Convergint benefits

- ✓ Video surveillance with advanced detection
- ✓ State-of-the-art network cameras and access control
- ✓ Easy integration with existing systems and apps
- ✓ Remote surveillance and management capabilities
- ✓ Extensive training, technical assistance, and service
