

Empowering **safe** and
confident access
through **trusted**
solutions

convergint®

Convergint **value**

Convergint partners with HID to create **seamless and secure** access control solutions that empower individuals to navigate both physical and digital environments with confidence.

By integrating HID's innovative technology with Convergint's expertise in security systems, organizations can ensure that only verified individuals gain access to restricted areas, **enhancing overall safety and efficiency**. Together, Convergint and HID enable businesses to implement cutting-edge solutions that not only protect assets but also foster seamless experiences for colleagues and visitors alike.
