

Building automation
solutions that increase
productivity and reduce
cost of ownership

convergint®

Convergint value

Convergint delivers reliable, scalable building automation solutions that seamlessly integrate to create efficient, comfortable environments. Taking a holistic approach, Convergint's experts develop flexible strategies tailored to unique needs, supported by a range of services including design, preventive maintenance, operator training, and project management. With an open system model, budget-friendly licensing for secure, up-to-date systems, integrated cybersecurity, and product-agnostic support, Convergint solutions are designed to improve operational performance and reduce costs.
